SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT

As listed on the accompanying Form PTO/SB/08A and/or Form PTO/SB/08B, submitted herewith are copies of the indicated references which Applicant believes may be material to the examination of the above-identified application, and in respect of which there may be a duty to disclose in accordance with 37 CFR §1.56.

Additionally, Applicant is submitting herewith as an Appendix the following information with respect to Applicant's duty of disclosure relating to one or more of the following: (a) co-pending, commonly assigned patent applications that may have related subject matter; (b) products/papers in pending litigation involving patents that may have subject matter related to the subject matter of the instant patent application; and (c) such other sources as may be applicable.

It is believed that paper copies of the materials with respect to the co-pending related patent applications (that is, copies of the applications themselves or of the prosecution papers such as the Office Actions, art cited therein and responses thereto, etc.) are readily available to the Examiner as they are part of the USPTO database. Accordingly, they are not being provided herewith as part of this filing. However, should the Patent Office require the copies at any time during the pendency of the instant patent application, Applicant will comply therewith accordingly.

Further, since the NPL and foreign references identified herein are being filed electronically, they are being transmitted in multiple separate filings due to the limit of 20 electronic documents per filing. Accordingly, all such multiple separate electronic filings should be treated as part of the instant IDS submission although the subsequent electronic filings may not include a separate copy of this present supplemental information disclosure statement.

The filing of this information disclosure statement and/or any attachments hereto shall not be construed as a representation that a search has been made, an admission that the information cited is, or is considered to be, material to patentability, or that no other material information exists. Further, the filing of this information disclosure statement shall not be construed as an admission against interest in any manner. Written notification that the enclosed references have been considered in their entirety by return of a copy of the enclosed form, completed by the Examiner, is respectfully requested.
